PROFESSIONAL SUMMARY

Motivated third-year Computer Science Engineering student with strong foundations in programming, problem-solving, and machine learning. Experienced in developing real-world web and AI-based applications. Seeking internship opportunities to apply technical skills in software development and data-driven solutions.

TECHNICAL SKILLS

- Programming: Python, C++, Java
- Web Technologies: HTML, CSS, JavaScript
- Databases: MySQL, Supabase
- Machine Learning: TensorFlow, Keras, NLP (CountVectorizer, Cosine Similarity)
- Tools & Platforms: Git, Streamlit, AWS

PROJECT EXPERIENCE

Amazon Clone (May 2024 – June 2024)

Developed a responsive e-commerce front-end inspired by Amazon using HTML, CSS, and JavaScript. Implemented product listings, navigation features, and modern UI components following best web development practices.

Resume Analyzer (Feb 2025 – April 2025)

Built an NLP-based application to rank resumes against job descriptions using CountVectorizer and cosine similarity. Enabled multi-format resume parsing and automated scoring for improved recruitment analysis.

Movie Recommendation System (Jan 2026 – March 2026)

Created a content-based recommendation engine using Python and similarity metrics. Designed an interactive Streamlit interface and integrated TMDB API for dynamic movie poster retrieval.

EDUCATION

B.Tech in Computer Science & Engineering – VIT Bhopal University (Expected 2027)

Science Stream – Jesus & Mary School (2022)
